Expected outcomes

1. Department of Education will outline process of accessing approved building designs and approvals
2. Action points on how to move forward on addressing the issue of integrated school safety in new public and private schools
3. Shared understanding of World Bank supported Open Cities initiative and how it can help inform Flagship 1: school safety work
4. Shared understanding of what work is taking place in the Kathmandu Valley, urban areas, and what is taking place throughout Nepal.
5. Possible scope of collaboration between other actors and current Flagship 1 : schools safety actors discussed and agreed
 - a. Agreed mechanism on sharing information between the Flagship areas and establishment of responsibility for this
 - b. Agreed mechanism for ensuring coherence regarding school safety across all Flagship areas
6. How other actors can support in software aspect of school safety for example:
 - a. Advocacy
 - b. Involvement of schools in functional organizational base setup in community / VDC level
 - c. Tie in with simulation drills
 - d. Curriculum development

Panel discussion – to be chaired by NRRC secretariat (Moirá Reddick)

- 1 DOE
- 1 MoFALD (or Flagship 4)
- 1 NSET
- 1 UNICEF
