

## Launch of the Project Tracking Survey

Project Tracking Survey

How well are communities in Nepal increasing their resiliency to disasters?

Complete the project tracking survey and help us find out

During the Urban DRR workshop, the updated Flagship 4 website and [Project Tracking survey](#) were launched.

WHY

The objective of the Project Tracking Survey is to track how CBDRR projects being implemented in Nepal are contributing to disaster resiliency at the community level and more broadly, at the national level. A short survey taking 10-15minutes to complete, [can be filled online](#) at the Flagship 4 website.

If you have not previously registered your project with Flagship 4 simply go to [www.nrrc.org.np](http://www.nrrc.org.np) to register and then fill in the survey. If your organisation is already registered with Flagship 4, a project ID and key will be forwarded to you shortly in order to complete the survey.

WHERE

**Project tracking survey Clinics** In order to assist organisations in completing the survey and answer any questions you may have, Flagship 4 will be conducting a couple of 2 hour clinics, the first scheduled for 31 August 2012, at 9am in Kathmandu. If you would like to attend the clinic please RSVP to [flagship4@nrrc.org.np](mailto:flagship4@nrrc.org.np). Note if there is a demand other clinics can be held in regional centres as well.

## **Flagship 4 & NRRC: Urban DRR workshop** On 13

August, 69 participants gathered at Hotel Himalaya to discuss urban DRR in Nepal; the minutes, group discussion and proposal for a virtual Urban DRR working group can be found [here](#). All presentations from the workshop; including activities and challenges of Urban DRR from implementing partners: N-Set, UNDP, ActionAID, Oxfam, British Red Cross and Nepal Red Cross Society are all located [here](#).

## **Photo journalist**

The NRRC has hired a photo journalist to build a library of high quality photos, capturing the diversity of Nepal, the multiple risks the country faces, the vulnerability of communities and the work being done to reduce that vulnerability. This photo library will be used by the NRRC for publications, presentations, etc.

If you would like to suggest a current active CBDRR project for a photo short please contact [flagshp4@nrrc.org.np](mailto:flagshp4@nrrc.org.np) by Friday 24 August 2012.
